Dear Mr. Sherwood:

REQUEST FOR REVIEW AND APPROVAL OF 233-S SAMPLING AND ANALYSIS PLAN

Attached for your review is the Sampling and Analysis Plan for the 233-S Plutonium Concentration Facility, DOE/RL-97-87, Draft A.

The Sampling and Analysis Plan (SAP) is based on the Data Quality Objective process and describes the general sample locations, minimum number of required samples, and identifies the specific contaminants of potential concern and related analysis. The SAP does not define the exact sample locations and equipment to be used in the field due to the nature of unknowns associated with the 233-S Facility.

Should you have any questions during your review, please contact me on 376-7121.

Sincerely,

Jeff M. Bruggeman, Project Manager
Decontamination and Decommissioning Project
